This is for the follow-up responses to EPA comments. I'm still working on the RI/FS text and hope to have that to you soon.

GC1. Discussion of Executive Order 11990 was added to the protectiveness evaluation but Executive Order 13112 was not.

GC4. The excavation boundaries have not been revised as indicated in the response.

SC30. Revised Table 10-2 was not provided - a simple revision was required per the response.

SC83. The revised tables were not provided - simple revisions were required per the response.

All,

Attached are the revised files for the Area A Wetland RI/FS. Included are:

1. All text files in one PDF
2. New and revised tables, other than table number changes. Note that Table 6-9 was deleted so all table numbers after that were decreased by one
3. New and revised figures, other than figure number changes.
4. Volume calcs and cost estimates
5. Final responses to comments.

Please call if you have any questions or I missed sending you something.

Thanks,

Aaron
