Mark -

This is what I have on the Area A LF GMP...it refers to response to comments - but not a final GMP (still can't find that). I sent an e-mail on this, no??

A review of the responses to comments on the Groundwater Monitoring Plan has resulted in the determination that all of the comments have been adequately addressed. The approach presented in the Final Groundwater Monitoring Plan for the Area A Landfill should provide more effective monitoring of any potential impacts from the Area A Landfill to the Area A Wetland and the Area downstream.
