Subject: *Round 12 Groundwater Monitoring Report for Area A Landfill Naval
Submarine Base, New London, Groton, Connecticut*

Re: Contract No. N62472-02-D-0810; Task Order No. 0002

Dear Ms. Keckler and Mr. Lewis:

ECC is pleased to submit the results from the twelfth round of groundwater sampling for the above referenced site on behalf of the U.S. Navy. Previous sampling rounds and results were submitted by TetraTech NUS, Inc. (TtNUS). Please note that results of the twelfth round of sampling are compared to criteria set forth in the the Groundwater Monitoring Plan for the Goss Cove landfill prepared by TtNUS in 2001. Modified criteria are proposed in the pending Operation and Maintenance Manual currently under preparation by TtNUS. Results for this twelfth round will be compared to updated criteria in the Annual Report.

Two copies of the report, as well as a CD with an electronic copy of the report in PDF format, are being submitted to U.S. Environmental Protection Agency. One copy of the report, as well as a CD with an electronic copy of the report in PDF format, is being submitted to Connecticut Department of Environmental Protection. Additional copies are being distributed as noted below. It is requested that future submittals be transmitted solely electronically to the extent feasible in an effort to reduce the amount of paper generated. Please respond with approval if this would be acceptable.

Feel free to contact Mr. Mark Evans of Engineering Field Activity Northeast at 610-595-0567 (ext. 162) or me at 508-229-2270 (ext. 206) if you have any questions.

Sincerely,

Darren Gainer, P.G.
ECC Project Manager
