## **MEMORANDUM**

**DISTRIBUTION:** Ms. Kymberlee Keckler, USEPA - Region I (2 copies)  
Mr. Mark Lewis, CTDEP (1 copy)  
Mr. Kenneth Finkelstein, NOAA (1 copy)  
Ms. Jennifer Hayes, Gannett Fleming (2 copies)

**FROM:** Corey Rich, Project Manager

**DATE:** September 12, 1997

**REFERENCE:** CLEAN Contract Number N62472-90-D-1298  
Contract Task Order Number 0260

**SUBJECT:** Final Work Plan and Sampling and Analysis Plan  
Lower Subbase Remedial Investigation (RI)  
NSB-NLON, Groton, Connecticut

---

On behalf of the United States Navy, Northern Division Naval Facilities Engineering Command and the Naval Submarine Base - New London, please find enclosed the final Lower Subbase RI Work Plan and Sampling and Analysis Plan (WP/SAP). Because only portions of the WP/SAP have changed between the draft final and final versions of this report, only replacement material is included. Please discard the appropriate material from the draft final WP/SAP and replace it with the enclosed material.

The USEPA's comments on the draft final WP/SAP, provided in their July 28, 1997 letter, have been addressed in this version of the WP/SAP as per the responses provided in the Navy's September 10, 1997 response to comment letter. This letter is not included in the final WP/SAP. No comments were received from the CTDEP on the draft final WP/SAP. Comments received from NOAA in their August 12, 1997 letter were addressed in this final WP/SAP, but no formal response to comment letter was prepared.

B&R Environmental, with the approval of the Navy, intends to mobilize for Phase 1 of the investigation on September 15, 1997 and to begin actual sampling on September 22, 1997. Tentatively, Phase 2 of the investigation will begin during the week of October 13, 1997. It is probable that the sediment and surface water sampling to be completed in the Thames River will

**DISTRIBUTION**

September 12, 1997 - Page 2

take place during that week and the groundwater sampling will begin on October 27, 1997. If you would have any questions regarding the report or the schedule for the field work, please contact me at (412) 921-8244 or Mr. Mark Evans at (610) 595-0567 (x162).

Very truly yours,

Corey A. Rich, P.E.  
Project Manager
