Re: Responses to EPA Comments on the Draft Post-Removal Action Report for Building 31

Dear Mr. Evans:

Thank you for the opportunity to review the *Responses to EPA Comments on the Draft Post-Removal Action Report for Building 31* dated January 3, 1995. In general, the responses adequately address the comments raised in my letter to you dated November 22, 1994. However, I note that two comments (numbers 7 & 13) mentioned a deviation from established plans. In the future, any deviations from agreed upon plans should be consulted with EPA and the CTDEP.

I am pleased that the Navy has agreed to continue investigations in this area either in the SA/SE Report or the Lower Subbase Remedial Investigation. I look forward to working with you on future investigations. Please do not hesitate to contact me at (617) 573-5777 should you have any questions or wish to arrange a meeting.

Sincerely,

Kimberlee Keckler, Remedial Project Manager
Federal Facilities Superfund Section
