ATTN: Mr. W. Gilley

Dear Mr. Gilley:

The Department of the Navy is conducting a program to systematically identify, assess, and control possible contamination from past hazardous material operations which may pose a potential threat to human health or environment. This program, The Navy Assessment and Control of Installation Pollutants, was begun in April 1982 at the Sewells Point Naval Complex. The first phase of the program, the initial assessment study, has been completed and a copy is provided for your information.

If you have any comments or questions with regard to this report please feel free to contact us. The Naval Base, Norfolk point of contact is Mr. J. G. Wallmeyer of the Atlantic Division, Naval Facilities Engineering Command, Phone: (804) 444-9566.

Sincerely,

R. A. Lines
