Draft
chCreekEECA RTCs

Hi Winoma

BTAG has reviewed the responses to comments on the EECA.

See Bruce's note below. He appreciates the Navy's work on this and willingness to consider BTAG concerns and recommendations.

I recommend you finalize the document.

Steve

Steve,

All of the responses are acceptable; we are good to approve the EECA. We will provide the requested information on recommended plant species under separate cover. Please feel free to contact me if you have any questions.

Thank you for the opportunity to provide continuing support on this project. Please also extend my gratitude to the Navy for their cooperation on this effort. It has taken a while for us to get here, but I think everyone is satisfied with the results and the environmental benefits that will result.

Bruce

Hi Bruce,

Looks like Navy agrees with all of your comments on the Bousch Creek EECA. Please look at the responses and let me know if we are good to approve the EECA. Navy is asking us for recommendations for native plant species for the revegetation effort.

Thanks
Steve

Steve -

Attached are the responses to comments received for the Draft EE/CA for Bousch Creek at Naval Station Norfolk. We hope to move forward with preparing the Draft Final/Final version for public review and comment, but request acceptance of these responses prior to making the necessary modifications to the document.

Please let me or Winoma know if you have any questions.

Thanks,
Paul
