Norfolk, Virginia 23511-2797

Re: Naval Base Norfolk CD Landfill, Permit No. 286

Dear Mr. Forsythe:

This letter is in regard to our recent telephone conversations concerning the referenced facility. As discussed, it has been determined that, due to acceptable construction delays, the operators will be unable to meet October 1, 1993 deadline for correcting discrepancies at the site. Therefore, the time frame has been extended to November 15, 1993. By this date, all discrepancies should be corrected at the facility and monitoring and closure activities should commence in accordance what has been agreed upon by the operators and the Department.

Should you have any questions regarding this, or any other waste management issue, please feel free to contact me at (804) 552-1251.

Sincerely,

A handwritten signature in black ink, appearing to read "T. L. Kowalski, Sr.", written over a horizontal line.

Thomas L. Kowalski
Environmental Inspector, Sr.
