SUBJ: Glenwood Park Civic Club Meeting

Sir:

Last night I attended another Glenwood Park Civic Club meeting. It was much more subdued and less well attended than the last meeting. The attendees were more of the original core group we have been working with all along.

The civic club has formed a Toxics Committee and they had some questions about the geology of the area. I will work with Cheryl to provide appropriate responses.

There was no press present.

V/B,

Scama
