RE: Remediation at Site 1, Camp Allen Landfill; LANTDIV Contract No. N62470-93-D-3032; Naval Base, Norfolk, Virginia; OHM Project # 15856

Dear Ensign Thurlow:

OHM Remediation Services Corp. (OHM) intends to conduct the dual-phase vapor extraction (DPVE) pilot test in Area A of the Camp Allen Landfill beginning September 7, 1994. Immediately following the DPVE pilot test, OHM will begin drilling 13 groundwater extraction wells on or about September 19, 1994. Surveyors will locate the 13 drilling locations and mark out the underground piping routes prior to September 19, 1994.

Numerous refuse containers currently occupy the treatment facility site. These containers must be moved to allow the surveyors access to the work areas.

If you have any questions regarding this project, please call me at (609) 588-6397.

Sincerely,

David E. Fulton, C.P.G.
Senior Project Hydrogeologist
