Camp Allen Landfill
Naval Base, Norfolk, Virginia
Final Feasibility Study Report Revisions

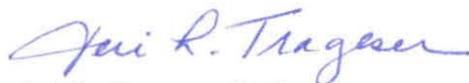

Dear Mr. Forsythe:

Based on revisions that were made recently to the Final Risk Assessment for the Camp Allen Landfill Site, some minor revisions to the Final Feasibility Study Report were also necessary. Baker Environmental, Inc. (Baker) is submitting two (2) copies of the revised pages of the Final Feasibility Study Report. Simply replace the appropriate document pages with those which are enclosed. Please note that four (4) additional copies of the revised pages have been forwarded to Ms. Dianne Bailey at Norfolk Naval Base. In addition, one (1) copy each has been sent to Mr. Rob Thomson at USEPA Region III and to Mr. Scott McMillan at the Virginia Department of Environmental Quality (VADEQ).

Baker apologizes for any inconvenience this may have caused. We appreciate the opportunity to provide continued technical support at the Camp Allen Landfill Site. Should you have any questions or comments concerning the enclosed revised pages, please call me at (412) 269-2032 or Ms. Tracey O'Keefe at (412) 269-6083.

Sincerely,

BAKER ENVIRONMENTAL, INC.
