Encl: (1) Map of Survey Area

1. Naval Base Norfolk has requested a radiological survey of the area shown on enclosure (1). As indicated in reference (a), LANTNAVFACENGCOM will isolate specific locations within the area so that the survey can concentrate on the most probable site where disposal may have taken place.

2. LANTNAVFACENGCOM requests RASO support on 20 September 1991 in conducting a limited radiological survey of the specific locations. Per reference (b), Mr. Kenneth Walker will meet with Mr. Troy Blanton at 9:30 a.m. on 20 September 1991 to conduct the survey.

3. We are looking forward to working with you on this project. Our point of contact is Mr. Kenneth Walker at 445-4385.
