Dear Jim,

The draft final work plan addendum for the investigation at Building 301 is enclosed. I have incorporated comments you and Will made on the draft work plan addendum submitted October 13. As we discussed, I have left out the health and safety from this draft because the health and safety plan is an internal CH2M HILL document and could slow down the review. We can send the health and safety plan to the EPA for review if they ask for it.

Please call me at (703) 471-6405 extension 4322 if you have any questions.

Sincerely,  
CH2M HILL, Inc.

Steven R. Brown, P.G.  
Hydrogeologist
