## INSTALLATION RESTORATION PROGRAM

## NAS OCEANA/NALF FENTRESS

PROGRAM SUMMARY TO DATE

- o Preliminary investigation phase revealed 16 initial sites.
- o During confirmation study seven sites were chosen for further investigation.
- o One new site was recently added, increasing to eight the total sites being investigated under the RI/FS phase of the program.
- o The eight sites under further investigation include four former aviation line shacks, two former landfills and one former oil disposal area at NAS Oceana and one former landfill at NALF Fentress.
- o First round testing was accomplished at six sites during summer 1986.
- o Second round testing was accomplished at two sites during summer 1988.
- o Available data indicates that none of the sites pose any immediate threat to human health or the environment.
- o Further testing will continue to determine both long term impact and possible remedial action.
- o A repository of general and technical information and the minutes of Technical Review Committee meetings will be placed on file for public review at the Main Virginia Beach Public Library on Virginia Beach Boulevard.

For additional information and assistance contact Mr. Ace Ewers, NAS Oceana Public Affairs Officer, telephone (804) 433-3131/2.
