RE: Final Corrective Measures Study for Site/SWMU 3- Causeway Landfill (6/00)  
Marine Corp Recruit Depot  
Parris Island  
SC6 170 022 762

Dear Mr. Sanford:

The Corrective Action Engineering and the Hydrogeology Sections of the South Carolina Department of Health and Environmental Control (Department) have completed the review of the above referenced document, which was received on June 6, 2000 in the form of revised pages. These revised pages were submitted in response to an email dated May 4, 2000 sent by the Department (Jerry Stamps to MCRD Partnering Team) concurring with the draft responses to comments. However, it has since come to the attention that a formal approval letter has not been issued. Therefore, this correspondence should be considered as such approval, and that the above referenced document is deemed complete with respect to R.61-79 of the South Carolina Hazardous Waste Management Regulations and all applicable guidance documents.

If you have any questions or concerns, please feel free to contact Jerry Stamps at (803) 896-4285 or Don Hargrove of the Division of Hydrogeology at (803) 896-4033.

Sincerely,

David Scaturo, P.E., Manager  
Corrective Action Engineering Section  
Division of Hazardous and Infectious Waste Management
