SUBJ: RI/RFI Report (Revision 2) for Site 1/SWMU 1 Incinerator Landfill and  
SWMU 41 Former Incinerator (June 2001)  
Marine Corps Recruit Depot Parris Island, South Carolina  
EPA ID#: SC6170022767

Dear General Cheney:

The U.S. Environmental Protection Agency (EPA) has received and reviewed the above referenced document. The necessary revisions have been made to address EPA and other regulator comments. EPA concurs that the document is adequate for its intent and should be considered complete. Due to the presumptive remedy approach, a number of remaining uncertainties were deferred to the FS/CMS by the RI. EPA's concurrence on the RI does not constitute endorsement of the presumptive remedy. Additional data may be necessary to demonstrate the long-term effectiveness and permanence of the preferred alternative in the FS/CMS.

If I can be of assistance in any way or you have questions regarding this issue, please call me at (404)562-8506.

Sincerely,

Robert H. Pope
