RE: Review of Draft Interim Remedial Action/Corrective Action Report
Site/SWMU 3 (September 2001)
Marine Corps Recruit Depot, Parris Island
SC6 170 022 762

Dear Mr. Harrington:

The South Carolina Department of Health and Environmental Control (Department) received the above referenced Draft Interim Remedial Action/Corrective Action Report for Site/SWMU 3 on September 11, 2002. The Department has reviewed the document with respect to the South Carolina Hazardous Waste Management Regulations (SCHWMR) and applicable guidance. Please refer to the attached memorandum prepared by Donald Hargrove. The Department recommends that the post-construction sediment analyses be reviewed prior to making a final determination on the completeness of the Interim Corrective Measure as reported.

If you have any questions regarding this issue, please contact me at (803) 896-4185 or Donald Hargrove at (803) 896-4033.

Sincerely,

David Scaturo, P.E., P.G.
Manager, Corrective Action Engineering Section
Division of Waste Management
Bureau of Land and Waste Management

Attachment: Memorandum from Donald Hargrove to David Scaturo

DRAFT Interim Remedial Action/Corrective Action Report, Site/SWMU 3
(September 2001)

The Division of Hydrogeology has reviewed the Document listed above. This document (dated 10 September 2001) was received on 11 September 2001. It provides a physical description of Solid Waste Management Unit (SWMU) 3, which includes the environmental investigations performed at this SWMU. It details the Interim Measure that was implemented to address environmental concerns at SWMU-3, and includes a Certification of Completion signed by a State of South Carolina registered Professional Engineer. Subsequent to the submittal of this document, MCRD has since reported that the monitoring wells abandoned as specified in this document have been replaced, and that long-term monitoring is ongoing. Additionally, post-construction sediment sampling and analysis has taken place, and a report on those findings is forthcoming.

This document was reviewed with respect to R.61-79 of the South Carolina Hazardous Waste Management Regulations (SCHWMR), and appropriate guidance documents. Based on this review, the Division of Hydrogeology has no comments with respect to groundwater at SWMU-3. It is recommended that the post-construction sediment analyses should be reviewed prior to making a final determination concerning the completeness of this Interim Corrective Measure as reported.

If you have any questions regarding this decision, please call me at (803) 896-4033.
