SCDHEC hydro comments, based on an email from Don, (11/5/02) Don said the following:

Hey Mark,

I don't recall seeing these responses before. I printed them out, and have reviewed them once. Some of them are acceptable, and some we need to discuss. I should be able to discuss the responses with you on Thurs. (I'm out of the office for training all day tomorrow).

I'm glad to see the explanation of the well abandonment. It sounds like there were great follow-up inspections afterward too.

We can discuss everything over the phone on Thurs., or it can wait until the meeting if you wish.

Don.

I'm not aware that we have ever discussed the issues that Don identified. We'll need to know what these issues are, and which RTC are agreeable. The hydro comments are part of the general SCDHEC RTC comments document attached to this email.

For SCDHEC engineering and risk assessment, I am not aware that we have ever had any response, so we'd be looking for concurrence on the RTC.

Concurrence documentation provided by EPA and SCDHEC, along with RTC, will be included in the report binder in the next distribution of the SI/CS Report.

Please let me know if I need to provide any additional information. Thanks - have a good weekend.
