North Charleston, South Carolina 29406

RE: Concurrence
Record of Decision, Site 12/SWMU 10 – Jericho Island Disposal Area
Marine Corp Recruit Depot, Parris Island
SC6 170 022 762

Dear Mr. Sanford:

The Corrective Action Engineering Section and Division of Hydrogeology of the South Carolina Department of Health and Environmental Control (Department) have completed the review of the above referenced document, which was received by the Department on September 25, 2006. The purpose of this Record of Decision (ROD) is to formalize the remedy for SWMU 10. The remedy includes the removal and disposal of debris piles, contaminated soils and sediments, the removal of the causeway connecting Jericho Island to the mainland, and land use controls to prohibit the use of groundwater.

The Proposed Plan for SWMU 10 was public noticed on August 6, 2005. A public information session was held on August 17, 2005 to explain the proposed remedy and solicit comments. No comments were received objecting to the proposed remedy.

The Department has deemed the remedy to be protective of human health and the environment and satisfies the RCRA corrective action requirements of Section VI of the Federal Facilities Agreement (FFA) effective March 31, 2006. Consequently, the Department concurs with this ROD.

If you have any questions or concerns, please feel free to contact Jerry Stamps at (803) 896-4285.

Sincerely,

Richard Haynes, P.E., Director
Division of Waste Management
Bureau of Land and Waste Management
