Thanks Mark. Hi Charles.

I have the Extension Letter now. It did go to Arthur, with a copy to me, but of course I have been out. Arthur sent it to me with a note to come talk to him. I am sure he just wants to know if these dates are what we talked about. So I will respond to you all as soon as I can get though the letter and meet with Arthur.

Anyway, I sent you (Mark) the file you needed just now. Let me know if there is anything else you need.

Thanks,

Lila

RE: Site 12 LUC RD EPA Comments

Hi Lila - the 29th comes from Kathy Stewart's 17 October extension letter covering the whole slate of near-term docs. It looks like EPA's copy went to Arthur Collins. Same letter also drove the Site 3 PP date of 26 November, and the Site 12 LUC RD D2 date of 29 October - which we expect to make. I've got a copy of the letter and will be happy to walk you through it if you want to call, but I'm going to wimp out and say that it might not be appropriate for me to make copies and send it out directly, at least without Charles' blessing. thanks

Hi Mark,

Sorry. But the word file is at the office. If I can, I will get someone to log on for me at work tomorrow and e-mail it to me. Then I can e-mail it to you. Otherwise it will be Monday before I can send it. Was the 29th in the milestone extension letter or is that a date based on 30 days or whatever? I have not seen the finalized extension milestone request letter. Last thing I knew Charles said Katherine was revising it still. Anyway, if I do not get it to you until Monday (and by the way - leave me a voice mail reminder. My e-mail at work will be about 300 bright red unread e-mails and this could get lost. But if you leave a voice mail reminder, that will get checked first, most likely), then I will be at an off- site meeting on Tuesday, probably off on Wednesday for spooky day, working from home on Thursday, and would not be looking for it until Friday, if even then.

Does that help? Probably not.....

Lila

Hi Lila - can you send the Word file for these comments - not critical, but helpful. If you're still home and can't access it till you get back - provided that's before the 29th due date - that will be ok, just let me know what to expect. Thanks. MS
