**Specific Comments**

1. Response to Amick Comment #3

Please provide a map with the locations of SWMU 13 and Elliots Beach OWS, in order for the Department to determine if the path forward is agreeable.

2. Site 12/SWMU 10 page 14

Please revise the last sentence of the status section to read that the "LUC RD is expected to be complete in **FY08**." Also please add the LUC RD to the table directly below the status paragraph as an FY 2008 Primary Deliverable.

3. SWMU 21 page 16

Please define SWMU 36 in the Site Management Plan. Also please provide an explanation of the history of SWMU 36 in the Exit Strategies.

4. SWMU 32 page 17

Please define PCE still bottoms.

5. SWMU 54 page 22

The status section reads, "Timing for funding for additional investigation is uncertain based on low relative risk." However, as stated in risk assessment comments to the SAR for SWMU54, sent by the Department on October 2, 2007, "Due to the levels detected and the nature of the compounds found in the wetland, it is recommended that the Marine Corp Recruit Depot Team give this site a high priority for further investigation and evaluation." Please take this comment into consideration for future planning.
