Dear Mr. Cook:

The Corrective Action Engineering Section of the South Carolina Department of Health and Environmental Control (Department) has completed the review of the above referenced letter received March 3, 2008. The new near-term milestone dates requested in the letter are approved. However, please refer to the US EPA's letter for conditions of their conditional approval. Please note that the Department will co-review the Site 3 Proposed Plan and Site 3 Risk Assessment Memo. Ultimately the Risk Assessment memo must be approved prior to approval of the Proposed Plan for the Site. The Department looks forward to continuing work with the Navy and EPA to meet these milestones.

If you have any questions or concerns, please feel free to contact me at (803) 896-4218.

Sincerely,

Meredith Amick, Environmental Engineer Associate
Corrective Action Engineering Section
Division of Waste Management
