Importance: High

See "NOTES" in questions below.

I TRIED TO PHRASE THEM LIKE THEY WOULD BE ASKED AND ADDED SOME DETAIL.
I HAVE NOT HEARD FROM TIM, SO NOT SURE HE IS IN TODAY. HE HAS EPA'S
FINAL WORD ON THIS.

When speaking with Tom about this issue (just for kicks) and I told him that Ron Kenlaw had observed her catching shrimp more than fish, Tom mentioned that she may not even be eating the shrimp. It depends on what kind she is catching. They may just be what Tom refers to as "Grass Shrimp" which she may just be using as bait on a line she uses somewhere else on base. So again, it is important to reassure her up front, go slow in the interview, give her time to talk and explain, and still somehow make sure your questions are answered.

Thanks,
Lila

I've been thinking about this for a while, and really can't think of anything more to add between your letter and Bob's suggestions. MS

Mark,

Here are the questions that I believe should be asked regarding fish at Site 3.

1 - How MANY OF YOUR INDIVIDUAL meals per week consist of fish OR SHELLFISH that were caught at THE CAUSEWAY POND?

2 - What is the AVERAGE size of the meals? (FOR EXAMPLE, A SERVING OF FISH IS THE SIZE OF YOUR WHOLE HAND? OR IS IT THE SIZE OF JUST THE PALM OF YOUR HAND? etc. WHAT IS THE NUMBER AND SIZE OF SHRIMP, CRAB, ETC. EATEN PER MEAL?

3 - How many people DO YOU KNOW WHO eat fish OR SHELLFISH caught at THE CAUSEWAY POND?

4 - What type of fish OR SHELLFISH DO YOU CATCH FROM THE CAUSEWAY POND TO EAT?

5 - How long have YOU been been EATING fish OR SHELLFISH CAUGHT FROM THE CAUSEWAY POND and how long do YOU expect to continue to EAT fish OR SHELL FISH CAUGHT FROM THE CAUSEWAY POND?

Bob
