Specific Comments

1. The Department reiterates the following comments from their June 2009 comment letter to the 2009 SMP:
 - a. The Department believes that any comments issued to documents related to Site 35 have been clarified; however, the team has not agreed on a path forward for Site 35.
 - b. It is the Department's understanding (from a 12/5/07 email Pittman to Amick) that SWMU 36 is no longer a hazardous waste storage area and therefore is no longer receiving waste from SWMU 21. Please clarify.
 - c. The Department believes that the to be demolished building discussed in the Site 45 Section has already been demolished. Please clarify.
2. Please ensure that the Sites 27, 55, 9 and 16 discussions are accurate and provide the same information. (i.e. The Site 27 SAP is separate from the Site 55/9/16 SAP, etc)
3. In Table 3 please explain why the status of Sites 27, 55, 9 and 16 do not correlate.
4. In the text for Site 45 it is stated that the RI Addendum and FS Report will be submitted together before FY10. However, the due dates for these documents are listed as different dates in FY10. Please explain.
5. In Table 3 several sites are listed as being investigated with Site 14; however, recent Partnering Team Meeting discussions seem to indicate that Site 14 will be investigated separately. Please correct the discrepancy.
