Parris Island, SC 29905-9001

Dear Mr. Cook and Ms. Donohoe:

The U.S. Environmental Protection Agency (EPA) is in receipt of the change pages submitted in response to EPA's conditional approval of the MMRP SI Report for UXOs 1-8. These change pages may be considered as sufficient for their intended purpose and the document may be considered final. While this document may be considered final, it is important to note that many issues with the report are actually being addressed via the Remedial Investigation Work Plan for these sites and the Expanded Site Investigation for UXOs 1, 2, and 4 rocket range subarea, which is still under review and pending revision. Pending issues will be resolved as agreed to in those documents once finalized. Please feel free to call with any questions you may have. I can be reached at 404-562-9969.

Sincerely,

A handwritten signature in cursive script that reads "Lila Llamas".
