RE: Approval of SAP for SI Sites 8A and 8B
Marine Corp Recruit Depot (MCRD)
Parris Island
SC6 170 022 762

Dear Mr. Owens and Ms. Donohoe:

The Division of Waste Management of the South Carolina Department of Health and Environmental Control (Department) completed the review of the above document received October 4, 2012. The Department reviewed the document with respect to applicable sections of the South Carolina Hazardous Waste Management Regulations (SCHWMR) and the Federal Facilities Agreement. Based on this review the Department approves the document.

Please note as discussed in the November 7-8, 2012 Partnering Meeting the lab should be able to achieve Limits of Quantitation below the Project Action Limits for all compounds for the data to be useable. Additionally the Department understands that sampling locations at Site 8A will be determined in the field due to infrastructure obstructions.

The Department's review is based on the information presented by MCRD to date; any information found to be contradictory may require further action. If you have any questions regarding this issue, please contact me at (803) 896-4218.

Sincerely,
