RE: Conditional Concurrence to
Work Plan for Expanded SI UXO 2 and Rocket Range UXO 4 Subarea
Marine Corp Recruit Depot (MCRD) Parris Island
SC6 170 022 762

Dear Mr. Cook and Ms. Donohoe:

The Division of Waste Management of the South Carolina Department of Health and Environmental Control (Department) completed the review of the *Work Plan for Expanded SI UXO 2 and Rocket Range UXO 4 Subarea* received May 18, 2012. The Department reviewed the document with respect to applicable sections of the South Carolina Hazardous Waste Management Regulations (SCHWMR). Based on this review the Department has the following conditions. The Department understands that field crews are already performing the work described in this work plan; therefore, these conditions should be met in the RI Report. Please see the attached memoranda.

The Department's conditional concurrence is based on the information presented by MCRD to date; any information found to be contradictory may require further action. If you have any questions regarding this issue, please contact me at (803) 896-4218.

Sincerely,

A handwritten signature in black ink, appearing to read "Meredith Amick". The signature is fluid and cursive, with the first name "Meredith" written in a larger, more prominent script than the last name "Amick".

Meredith Amick, P.E., Environmental Engineer
Corrective Action Engineering Section
Division of Waste Management

Lila Llamas, EPA Region 4

Peggy Churchill, TiNUS

Russell Berry, EQC Region 8, Beaufort

Annie Gerry, Hydrogeology

Priscilla Wendt, SCDNR

Engineering Memo
Prepared by Meredith Amick
Marine Corp Recruit Depot (MCRD)
August 8, 2012

1. Please address SCDNR concerns (as provided in the June 22, 2012 letter) through the RI process.
2. Although UXO 1 is mentioned in this document, the Department understands that the administrative process for UXO 1 will be handled under separate documentation. Any necessary comments for UXO 1 will be made to the UXO 1 documentation.
3. Based on discussions during the team meeting July 25, 2012, the Department understands that investigation at the Rocket Range UXO 4 Subarea will also occur from the waterside (north side) of the range. This will ensure that any MEC or MD accessible by property adjacent to the creek is investigated.
4. Response to Amick Comment #1
The response is satisfactory; however, the statement, "This reporting convention is preferred by SCDHEC." remains in the document. This statement is incorrect, please ensure that this statement is not included in further documentation.
5. Response to Gerry Comment #1
To be consistent with soil and sediment analysis at the Rocket Range UXO 4 Subarea, the groundwater sample should also be analyzed for metals.
