P.O. Box 1195  
Auburn, ME 04211-1195

Carolyn,

Attached is a copy of Andy Reeve's geochemical modeling report done for the Maine DEP. The original report's figures are in color. Let me know if you would prefer color figures and I'll see if Andy can send me a copy.

The report also contains a floppy disk with results of a database literature search. It is just a very long list of references. I did not include a copy of this for you but if you would like one let me know and I'll send you a floppy disk with the files.

Also attached is an announcement for a Weight-of-Evidence short course in Boston in June. I thought you or Dr. Brown might be interested in this.

Let me know if you have any questions (287-8010).

Sincerely,

Iver McLeod

Project Manager  
Bureau of Remediation and Waste Management
