Subject: DRMO

Fred,

In light of the uncertainty regarding erosion (how much? for how long?) at the DRMO and in light of all the attention it's getting, the MEDEP would like the Shipyard to put some temporary erosion control measures in place such as silt fencing and/or haybales ASAP. Given the slope, silt fencing may work better.

Please look into this and get back to me either today or tomorrow at our meeting.

Thanks,

Iver McLeod
