RE: Technical Memorandum, Risk Evaluation of Surface Soils from the Jamaica Island Landfill (JILF) Site, Portsmouth Naval Shipyard, Kittery, Maine, May 1997.

Dear Fred:

The Maine Department of Environmental Protection has reviewed the document referenced above. The Navy has sufficiently addressed the MEDEP's concerns regarding the risk evaluation of surface soils from the Jamaica Island Landfill (JILF). As the MEDEP's concerns have been resolved, and as the ball fields on the JILF are no longer being used for recreation, the MEDEP believes that no further work is necessary on this issue.

Please feel free to contact me at (207) 287-8010 if you have any questions.

Sincerely,

Iver McLeod
Project Manager
Bureau of Remediation and Waste Management
