R : INSTALLATION RESTORATION (IR) PROJECT AT NAVAL AIR STATION (NAS) SOUTH WEYMOUTH

Dear Mr. Fitzgerald:

The Navy is conducting a Site Inspection at the NAS in South Weymouth, MA. The inspection is based on findings from a Preliminary Assessment (PA) of the NAS by the Naval Energy and Environmental Support Activity (NEESA) in March 1988.

This letter forwards the NAS South Weymouth Draft SI Work Plan for your review as well as a copy of the PA. This work plan sets forth a sampling program to investigate potential contamination at the Naval Air Station. This will be the only draft version of this plan and the only opportunity to review the work plan before it becomes finalized. While your office is conducting its review, EPA Region I will also be given the opportunity to review and comment on the subject work plan. Please provide your review comments by 22 September 1989, at which time our contractor is scheduled to commence finalization of the subject work plan.

Questions regarding this project should be directed to Mr. Scott Palmer, IR Remedial Project Manager, at (215) 897-6432.

Sincerely,

T. G. SHECKELS
Head, Restoration Management Section
By direction of the Commanding Officer
