Re: Revised Decision Document – RIA 37
Environmental Baseline Survey
Former South Weymouth NAS
RTN No. 3-2621
November 6, 2002

Dear Mr. Leipert:

The Department has reviewed the revised *Decision Document for Review Item Area 37, Courier Station*, dated August 6, 2002. With the exception of one minor typographical error (Section 2.5: the "Relative Ground-Water Elevation" entry for well MW11-202, 145.42 feet, should be corrected to 144.56 feet), the Department accepts the document without further comment.

If you have any questions regarding this letter, please contact David Chaffin, Project Manager, at (617) 348-4005.

Very truly yours,

A handwritten signature in black ink, appearing to read "Anne Malewicz".
