Subject: RIA 104 Decision Document and Eco and HH Risk Evaluations

All EPA comments on the December 2008 Draft Decision Document have been adequately incorporated into the Draft Final Decision Document. All EPA comments on the Ecologic Risk Assessment and Human Health Screening Evaluation, which are now included in the Decision Document in Appendix D and Appendix E, have been incorporated. These risk evaluations support the assertion that there is no unacceptable risk from exposure to RIA 104 media. No Further Action is acceptable. EPA will not be issuing further comment. Thank you.
