Subject: RTCs - Hangar 1 Streamlined Human Health Risk Assessment

Please find attached the responses to comments received on the draft SRA for Hangar 1. Once EPA and MassDEP review and approve the responses, the final risk assessment will be issued. However, if there are outstanding issues, a meeting will be scheduled to resolve them prior to completion of the final document. As mentioned on the RAB conference call this afternoon, the current schedule envisions issuing the draft final PRAP for review concurrently with the final SRA. Both scheduled for the mid-late January. The SMP schedule then shows a public hearing date of 2/22/10, which would work well with Kymberlee's travel plans. We are also trying to get a jump on the ROD to compress the schedule a bit.

The distribution of these RTCs will be completed early next week.

Phoebe
