The Navy announces the availability of a Finding of Suitability to Lease (FOSL) for review prior to signature by Navy. The FOSL covers approximately 492 acres, the balance of the Base property not previously transferred or pending transfer. The FOSL will support a Lease in Furtherance of Conveyance for approximately 492 acres. The intended uses during the lease period are for development work that includes, but is not limited to, building demolition, foundation removal, road improvement, road construction, utility repair or improvement, removal of pavement, removal of runways and taxiways. During the lease period, environmental investigations and response actions may also be performed. The FOSL documents Navy's determination that the property is environmentally suitable for lease for the intended purposes, in accordance with various conditions in the FOSL.

Copies of the FOSL are available for public review at the Information Repositories listed below for a 30-day review period, May 19 to June 18, 2008.
