Subject: Re: TRC Meeting Minutes and Proposed Agenda, Nomans Island

Brian Helland,

The Wampanoag Tribe is pleased with your decision to have the Tribe host the next Nomans TRC meeting. June 21st has been set aside by the Tribe to host the meeting. I hope this works out for everyone. I would like to suggest that the following items be added to the agenda as proposed;

DMF review of Shellfish Population Survey and recommendations for tissue sampling protocols.

Review of draft comments on Draft Scope of Work Phase II Expanded, provided by TRC members. (Copies made available to TRC members).

Speaker from MMR representing experiences/use of aerial magnetometers at MMR.

Discussion of Interviews and Historical Use Investigations as proposed and outline of a work plan which involves Chilmark, Aquinnah and the Wampanoag Tribe in process.

Jeff Day will attend the meeting on behalf of the Wampanoag Tribe.

For those not familiar with the Tribal Administration Building same directions apply as to the Menemsha School. Continue past the Menemsha School on State Road for approximately 5 miles. Enter Town of Aquinnah. Go past the first tar road on left hand side (Moshup Trail). The next paved road on left (Black Brook Road) is the tribal access road. It is marked by two large boulders with Wampanoag Tribe engraved on them. Follow this road for 1/4 mile until it ends. The Administration building is on the hill at the end of the road.
