Subject: Five year review - additional VDEQ comments

Team -

Since we are not going to be able to meet the March 21st deadline for signature on the five year review I'd like to submit four additional comments from the VDEQ risk assessor.

1. Please include additional general information in the text of Section 1 on Sites 2, 5, 21 and UXO 1.
2. Please include pre-remediation GW concentrations of site COCs for Site 4 in Section 3.4.5 or as a figure and referred to in Section 3.4.5 and a paragraph indicating removal actions were verified based on confirmation samples in Section 3.3.2.
3. Please add a paragraph to Section 3.4.5 discussing the phasing out of site COCs from groundwater monitoring.
4. Please include the following additional information on community involvement - (in Section 3.4.4) number of written surveys mailed out to community members, number of community members contacted for a phone interview - (in Section 3.4.1) date the RAB was established, site visits are sometimes conducted in conjunction with RAB meetings.

Let me know if you have questions.

Thanks,

Karen M. Doran
