Subject: SJCA Site 5 Supplemental RI SAP

Team,

Attached is the response to the comment submitted by USEPA on the draft Site 5 Supplemental RI SAP, as well as the SAP, which has been redlined for final . The redlines track the changes that have been made to address the comments received by USEPA and VDEQ and to incorporate the changes associated with hexavalent chromium, as discussed during the partnering meeting.

Please indicate if you concur with the comment response and the redlined revisions within 7 days, by 3/26. Then we will submit the redlined SAP to the NAVFAC QAO for review.

Thanks,

Adrienne
