**Subject:** Site 2 FS - VDEQ concurrence  
**Attachments:** image001.jpg

Janna -

Please add a note to all figures depicting the high concentration area and/or the treatment area indicating that the final determination of the high concentration area (and, thus, the treatment area) will be reevaluated following plume delineation during the design phase.

Once that is completed VDEQ grants concurrence on the document.

Thanks,

*Karen M. Doran*
