**St. Juliens Creek Annex, Chesapeake, Virginia**

This Proposed Remedial Action Plan (PRAP) identifies the Preferred Alternative for addressing potential contamination at Waste Disposal Area C (formerly called Landfill C), at St. Juliens Creek Annex (SJCA), and provides the rationale for this preference. This document is issued by the Navy, the lead agency for site activities, and the support agencies, the U.S. Environmental Protection Agency (EPA) Region III, and the Virginia Department of Environmental Quality (VDEQ). The Navy, in consultation with VDEQ and with the concurrence of EPA, will make the final decision on the remedial approach for Site 3 after reviewing and considering all information submitted during the 30-day public comment period. The Navy and EPA, in consultation with VDEQ, may modify the Preferred Alternative or select another remedial action based on new information or public comments. Therefore, public comment on the Preferred Alternative is invited and encouraged and interested parties may submit written comments to the following:
