Subject: Draft ROD Comments

Hi, all.

Here are the DEQ comments on the Draft ROD for Site 6. Pretty minor stuff, the draft ROD looked good - nice job! The comments are:

- **Section 1.2 Statement of Basis and Purpose**
Add the word "Additionally," before the last sentence of Paragraph 2 [The Commonwealth of Virginia...].
- **Section 1.4 Statutory Determination**
Please include in this section the following statement: "None of the CERCLA §121 statutory determinations are necessary in this section since no remedy is being selected."
- **Section 2.1 Site Name, Location, and Description**
Please include in this section the National Superfund database identification number for SJCA.
- **Section 2.2.1.2. Phase II RCRA Facility Assessment**
Please define RFA in first sentence.
- **Section 2.2.1.4. Remedial Investigation**
Please define RI in first sentence.
- **Section 2.3 Community Participation**
Please check the dates for the public comment period and advertisement date. The notice was published on May 18, not May 20.
- **Section 2.4 Scope and Role of Response Actions**
In the last sentence, please change to...the site does not pose an unacceptable risk to human health *or* ecological receptors.
- **Section 2.5.2. Conceptual Model**
Figures 2-3 and Figure 2-4 are not included in draft document.
- **Section 2.6 Current and Potential Future Site and Resource Uses**
Include in the narrative, the distance to the deep water irrigation well [i.e., over 1 and 1/2 miles away].
- And finally, if we do get public comment, the appropriate sections will need to be updated accordingly.

Please let me know if there are any questions.

THANKS!
