Team -

I have reviewed the referenced document and submit the following VDEQ comments:

Typographical comments:

1. Figure 2 - remove random numbers from legend
2. Table 1, Site Investigation, seventh line - "...ecological risk screening was to determine..." - please insert "performed" after "was"
3. Section 2.5.2, first paragraph - "...protect public health or welfare or the environment..." - should we say "human health and the environment"?
4. Section 2.5.2, second paragraph, third line - change "State of Virginia" to "Commonwealth of Virginia"
5. Section 2.6, second paragraph, fourth line from bottom - remove "and DNAPL"
6. Table 5, Alternatives 2-4, third column - LUCs statement should not be bulleted
7. Section 2.9.1, third line - change "then" to "than"
8. Section 2.9.2, last line - insert a comma after "monitor"
9. Section 2.9.4, Compliance with ARARs and TBC Criteria, end of third line - herein is misspelled
10. References 1 & 2 - should be Section 2.3

General comments:

11. Figure 5 - suggest changing either the UST symbol or the Low-Conc Zone border, it looks like a bunch of little USTs
12. Section 3 - Dave Koubsky with the Elizabeth River Project attended the public meeting and asked questions
13. Reference 15 - should this reference the FS instead of the RI?

Thank you for the opportunity to comment.
