Subject: SJCA Area UXO 1 PA Report RTC & Finalization

Hi team,

Based on our partnering discussion and resolution of the NAVFAC comments, we've revised the response to comments that was distributed in May. The updated RTC is attached for your review. Two things have changed in the response to EPA comments:

- Comment 3: Walt had a note added to INFEDAS (internet Navy Facility Assets Data Store) noting the potential presence of munitions in the wharf area.
- Comment 6: Although we initially thought all the CAIS were removed by airlift, upon further review of the records, we realized there is uncertainty with the mode of transportation. Therefore, CAIS have been added to the list of potential items and the MRSPP worksheets have been revised.

If the revised RTCs are acceptable, please let us know and we will send out the final document in time to meet our team goal of June 30. If you have additional questions or concerns, please let me know.

Thanks~

Janna Staszak, P.E.
