Thanks Bob, Understand you have been snowed in...looks like a mess up there. Drive safe!

Walt

RE: UXO schedule

Tim,

Please proceed with collecting the preliminary bathymetry data using side scan sonar on Feb 11.

Bob,

Please contact me to indicate if you have problems/concurrence with the revisions to the UXO 0001 QAPP or need more time to review. The contractor can't proceed with the in-depth DGM survey until we have team concurrence on the QAPP.

Thanks!

Walt
