Re: Draft Environmental Baseline Survey - Phase II Work Plan

Dear Mr. Smith:

The New Jersey Department of Environmental Protection (NJDEP) is in receipt of the Draft Environmental Baseline Survey - Phase II Work Plan dated May 1996.

Based upon review of the document and our subsequent meeting on May 16, 1996, NJDEP finds the document acceptable pending incorporation of the following comments.

1. Page 1-2

The first sentence of the first paragraph shall be rewritten to read: "Data will be compared to the New Jersey Soil Cleanup Criteria dated 3 February 1994, and..."

2. Page 3-1

The fourth bullet under No. 2. Confirmatory Sampling shall be revised to include NJDEP guidance and criteria as well as EPA's. Only EPA is cited.

3. Page 3-24

For AOC No. 42, sampling is not required near to area where the underground storage tank was removed since the tank removal was approved by NJDEP a few years ago. However, as discussed at our meeting, it is recommended that the SCVA sample points be relocated to the piping is/was located on the other side of Building No. 26.

If you have any questions regarding this letter, please do not hesitate to contact me at (609) 633-1455.

Sincerely,

A handwritten signature in cursive script that reads "Donna L. Gaffigan".
