Re: Naval Air Warfare Center  
Site 4 Clean Fill Verification

Dear Mr. Monaco:

At the request of Ed Leonard of Foster Wheeler, I am writing to verify that the additional testing of the soil to be used for backfill at NAWC's Site 4 indicates that it does meet the Commonwealth's Clean Fill Standards.

As I mentioned during our last BCT meeting, it's good procedure to include the appropriate quality control blanks when sending any samples for analysis. If the lab has a problem, it shows up right away and could prevent delays such as the one we've experienced here.

If you have any questions or if I can be of further service, please contact me at the above phone number.

Sincerely,

David C. Kennedy
