Re: Naval Air Warfare Center (NAWC), Warminster, PA

Dear Mr. Monaco:

This letter regards Proposed Soil Gas Survey Work for Site 6, as prepared by HNUS in letter dated May 25, 1995.

As described in the subject letter (and any documents referenced in the subject letter), the nature of the proposed soil gas survey for Site 6 is unclear. In a particular, there is no map indicating the location of the soil gas stations proposed for Site 6. In this regard, EPA requests that the proposed soil gas stations be located on maps which indicate the location of probable or possible trenches and pits within Site 6. In particular, the proposed soil gas stations should be located on Figure 1 (TR4 Area Base Map) and Figure 23 (TR11/12 Area Base Map) as provided in an HNUS letter dated April 19, 1995, and Figure 3 (Additional EM Profiles for POSS TR6D) as provided in an HNUS letter dated May 22, 1995.

Upon receipt of this information, EPA can comment on the completeness of the proposed soil gas survey for Site 6.

Please give me a call if you have any questions or comments.

Sincerely,

A handwritten signature in cursive script, appearing to read "Darius Ostrauskas".
