Contract N62470-95-D-6007
Contract Task Order (CTO) 0172
Final Action Memorandum for Contaminated Soil at Site 1
Naval Weapons Station Yorktown (WPNSTA Yorktown), Cheatham Annex Site

Dear Mr. Harlow:

Enclosed are two copies of the signed Final Action Memorandum for Contaminated Soil at Site 1, WPNSTA Yorktown, Cheatham Annex. The Final Action Memorandum includes the Final Engineering Evaluation/Cost Analysis (EE/CA) for Contaminated Soil at Site 1 as Appendix A. The EE/CA presents alternatives for a non-time-critical removal action addressing landfill material and contaminated soil at Site 1. These alternatives were developed based on site-specific information concerning soil and debris remediation, shoreline stabilization and protection, and protection of existing wetlands. The Final Action Memorandum presents the selected remedy based on the EE/CA and documents approval for the removal action.

The Final Action Memorandum and EE/CA identify contaminants of concern and remediation goals at Site 1. Remediation goals for ecological contaminants of concern were agreed to during a conference call on April 14, 2003. Human health and ecological remediation goals were compared, and the lower remediation goal was selected as the final remediation goal. These final remediation goals were agreed to by the Yorktown Partnering Team on June 19, 2003. Copies of this submittal have been sent to the other members of the Yorktown Partnering Team. Baker appreciates the opportunity to provide support to LANTDIV and WPNSTA Yorktown. If you have any questions regarding this deliverable, please contact me at (412) 269-6014, or Mr. Don Joiner at (757) 631-5416.

Sincerely,

BAKER ENVIRONMENTAL, INC.
