RE: REVISION TO THE DRAFT FINAL WORK PLAN, CONTRACT N62470-02-D-3260, TASK ORDER NO. 113, SITE 11 – HOT SPOT REMOVAL ACTION, CHEATHAM ANNEX, NAVAL WEAPONS STATION YORKTOWN, VIRGINIA, SHAW PROJECT 128068.

Dear Mr. Murray:

Shaw Environmental, Inc. (Shaw) is submitting a figure change and text section changes to the Draft Final Work Plan submitted prior on October 30, 2008 for the above referenced site. These changes incorporate a recent revision to the site EE/CA and are significant to your review. An attached response to comments document provides details on the changes to the main text and figure. The UFP-SAP was also changed to incorporate the addition of Iron as a PRG for Area 3.

The attached figure and text sections supersede the prior provided text sections of similar title. Please remove the following text sections from the prior provided document and replace with the attached sections.

- Main Text – Cover page thru 6-2.
- Figure 2
- Appendix E (UFP-SAP) – Only worksheets 1 thru 11 have been hard copy printed in this attachment. Additional worksheets are provided on the CD. The prior submittal did not have a printed section in Appendix E.

Shaw apologizes for any inconvenience this may cause in review of the document. Review comments to the Navy by December 12, 2008 would be greatly appreciated.

The attached CD includes the complete Work Plan re-submittal including the changed text sections and figure. Upon receipt of your comments, we will prepare a Final Work Plan for the activities to be performed at CAX Site 11. Should you have questions or comments please do not hesitate to call me at (757) 640-6921.

Sincerely,

A handwritten signature in black ink, appearing to read "Millard S. Dunham", is written over a horizontal line.

Millard S. Dunham
Project Manager
