RE: FINAL WORKPLAN FOR PCB REMOVAL ACTION AT SITE 1 - PRIVET ROAD; NAVAL
AIR STATION JOINT RESERVE BASE (NASJRB) WILLOW GROVE, PA

Dear Ms. Baker:

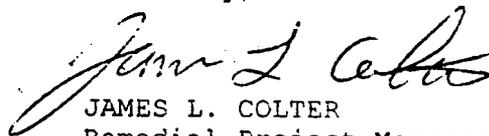

Enclosed is the Navy's workplan to conduct a PCB removal action at Site 1 - Privet Road Compound at NASJRB Willow Grove, PA. This workplan was prepared by the Foster Wheeler Corporation who is our Remedial Action Contractor (RAC) and who will be responsible for implementation of the workplan. The final workplan has incorporated the Navy's Action Memorandum as Attachment A which includes the signature of the Commanding Officer of NASJRB Willow Grove.

The Navy has established a very aggressive schedule for the completion of this work. Construction activities are scheduled to commence on Monday, June 7, 1999 with a planned completion date for excavation by Friday June 11, 1999.

Due to this aggressive schedule, it will not be possible for the Navy to submit a copy of this final workplan to each member of the RAB before construction activities begin. However, a copy of the workplan with the Navy's Final Action Memorandum attached will be placed in the Navy's information repository located at the Horsham Municipal Building.

If you have any questions or require additional information, please give me a call at (610) 595-0567, extension 163.

Sincerely,

JAMES L. COLTER
Remedial Project Manager
by direction of the
Commanding Officer
